WITH NOXIOUS FUMES Strike of St. Petersburg Students Brings Resignation of Rector and

St. Petersburg, Feb. 14.—The rebel-lion against authority of the students of the University of St. Petersburg has become so serious that Prof. David D. Grimm. the rector, and Prof. Ivan D. Aldrejev, the pro-rector, resigned to-

ris.

Bishop David H. Greer of the Episcopal diocese of New York, an ardent advocate of a "safé and sane" Fourth of July, made a plea for a sustained crusade against the indiscriminate use of fireworks. The students continued their annoying tactics this morning and the lecture room was so filled with the fumes of noxious chemicals that the professor in charge fainted. The quarrel between the faculty and the men began when certain priviliges of the students were curtailed in punishment of demonstrations offensive to the government.

Omnibue Claims Bill.

(Special to The Bulletin.)

Washington, Feb. 14.—The house committee on claims has finally reported the omnibus claims bill that passed the senate last December, but all the French spollation claims were cut out of the bill. These are the claims in which so many Connecticut people are interested, but the southern members of the committee refused to vote for them. An effort will be made to have them put on the bill again when it comes before the house for action. If this does not succeed, there is still a chance to get these claims on in the committee conference.

The following Connecticut claims, known as navy yard overtime claims, are in the bill as reported: To Lifa J. Baldwin of Norwich, widow of William S. Baldwin, \$212; to Elizabeth F. Curtis of Bridgeport, administratrix of William Barrymore. \$502.57; to Julius

from \$1.50.

Few Developments in New York.

Albany, N. Y., Feb. 14—With Charles
F. Murphy, the Tammany leader, and
William F. Sheehan, both absent, there
were few developments in the United
States senatorial situation here tonight. Many legislators continue to
express the opinion that nothing save
the withdrawal of Mr. Sheehan will
break the deadlock. If he continues
to stick, they say the legislature may
continue daily and ballot for a senator
until adjournment. There was practically no change in today's vote,

CELEBRATE FRIDAY NIGHT

AS ANAESTHETIC.

Johns Hopkins Hospital.

Baltimore, Feb. 14.—Lukewarm water is now being used as an anaesthetic in most operations for appendicitis at Johns Hopkins hospital, according to the statement today of a surgeon of national repute connected with the institution.

In an operation for appendicitis, declared the surgeon, all that is necessary is to inject lukewarm water in sufficient quantities under the skin in the vicinity of the part operated on. "We have obtained great results through the ues of water," he said, "and in most cases would rather use it than a drug."

While the operation is in progress the patient is said to feel no pain, is fully conscious and whaches with interest the man with the knife.

The use is confined to only a few surgeons who have learned the proper manner to inject it to get results.

It is said water results in the operation have none of the after-effects which mark the use of ether or oother drugs.
